YOUR COMMENTS ON THE CASE

I wish to object to the proposed application. The increase in passenger numbers at Luton Airport should not, I contend, be approved for the following reasons:
1) The proposals are contrary to local planning policy and approval would, therefore, be contrary to the Government's localism agenda and National Planning Policy Framework
2) There is no economic case for expansion, with an underlying significant fall in air passenger movements in recent years - there is no evidence to suggest that there is demand and associated economic benefit from the application
3) The application, if approved, will create considerable environmental impacts including air pollution, light pollution and noise pollution - the affects of current operation are already felt at my home, and will only be exacerbated if the application is permitted.
