YOUR COMMENTS ON THE CASE

I oppose the application, primarily on the grounds of the increased noise nuisance and local traffic congestion with which we were very familiar before the Covid reduction in travel, and which are now building up once again. Luton Borough Council, the ultimate owner of the airport, has shown itself to be dismissive of the concerns of the population most affected by its revenue ambitions and of climate change considerations. The application is in blatant contravention of the Council's own Local Plan and the national goals of noise and pollution reductions and the authority should be required to comply with its own planning conditions. We are not opposed to the airport per se but it should be managed as an asset to the area.
