ABOUT YOUR COMMENTS

In what capacity do you wish to make representations on this case?

- ☐ Applicant
- ☐ Agent
- ☑ Interested Party / Person
- ☐ Land Owner
- ☐ Rule 6 (6)

What kind of representation are you making?

- ☐ Final Comments
- ☐ Proof of Evidence
- ☐ Statement
- ☐ Statement of Common Ground
- ☑ Interested Party/Person Correspondence

☐ Other

YOUR COMMENTS ON THE CASE

I strongly oppose this planning application on the following grounds:
1) The airport operators have consistently and blatantly disregarded the noise constraints imposed when the original planning permission to increase passenger numbers was granted. Why should the airport be rewarded for this flagrant disregard of planning conditions by being allowed to further increase numbers beyond the limit that was claimed to be sufficient for several years to come?
2) At a time when the disastrous effects of climate change (climate catastrophe) are becoming increasingly evident across the world, it is wrong to enable aviation emissions to increase further
3) Aircraft noise, especially at night is harmful to the health and well-being of thousands of people living around the airport and increasing the noise contours will make the situation even worse. I live in the village of Caddington directly under the path of incoming aircraft and night flights in particular make our lives a misery, especially in the summer when windows have to be open for ventilation
4) The benefits to the local community in terms of employment at the airport are greatly overstated
5) Further expansion of the airport will add to the road and rail congestion we already suffer in this area.
