YOUR COMMENTS ON THE CASE

I strongly oppose this application. Government support for Luton Council (£80 million) for post-pandemic recovery was provided on condition that Luton town reduces its reliance on the airport. Luton town centre needs to be regenerated like Stevenage instead of putting all its eggs in one basket with the airport. The airport is already big enough. Passenger numbers at Luton doubled between 2103 and 2019 leading to repeated breaches of noise limits allowed by Luton Council who own the airport - where is the impartiality in that? They have proved they cannot keep their word and should not be rewarded for their dishonesty. Further expansion would mean more plane noise, traffic congestion and pollution and carbon emissions. 99% of the airport's emissions are from planes and vehicles accessing the airport. Say "no" to the expansion and call time on the unsustainable growth of aviation.
