- ☐ Rule 6 (6)

What kind of representation are you making?

- ☐ Final Comments
- ☐ Proof of Evidence
- ☐ Statement
- ☐ Statement of Common Ground
- ☑ Interested Party/Person Correspondence

☐ Other

YOUR COMMENTS ON THE CASE

I wish to express my husband and my concerns regarding the fact that this application contravenes the Luton local plan and government policy which require noise pollution to be REDUCED NOT INCREASED over time. Local residents have had to endure more noise than is permitted over the last 3 years as of 2017. The Airport will of course be aware of these conditions but have not addressed them- why should we trust them to work within the permitted framework in the future? Only Covid restrictions stopped their excesses. Providing local jobs and help to the local economy is simply overstated - money is being taken abroad to other countries and local staff are paid low wages.
The worst problem of all is the overcrowding of our local roads and rail services. Any accidents/delays/roadworks cause chaos at present. Our transport systems are simply unable to cope with anymore numbers. Some residential areas are being subjected to fly parking as passengers avoid the high car parking charges and causing further misery to local people.
Iwish to add that these comments are in addtion to my comments made on the Luton Planning portal.
