YOUR COMMENTS ON THE CASE

Luton Airport Authority cannot be trusted to meet their current planning obligations and this obligation contravenes the Luton Local Plan and Government policy on noise reduction.
Whilst the number of flights is climbing back to pre-covid "normal" it is inequitable that the authority granting planning consent is also the effective owner of the airport, this clear conflict of increase makes it difficult to trust any promises from the airport on its future conduct and activities.
Noise levels have increased significantly since we move in to this house in 2022 and we have endured more noise than is permitted for 3 years in a row as of 2017.
This application will not help us meet out climate change commitments, all it does is move spending abroad. Whilst the economic benefits have been routinely exaggerated by the Airport authority.
