- ☐ Applicant
- ☐ Agent
- ☑ Interested Party / Person
- ☐ Land Owner
- ☐ Rule 6 (6)

What kind of representation are you making?

- ☐ Final Comments
- ☐ Proof of Evidence
- ☐ Statement
- ☐ Statement of Common Ground
- ☑ Interested Party/Person Correspondence
- ☐ Other

YOUR COMMENTS ON THE CASE

I oppose this application on the basis of the ground impacts...
Travel: there is no suitable East/West road link to Luton airport and the B563 is a dangerous congested road with already too many large vehicles that create congestion.
Public Transport: I so not believe that the public transport links are credible for people travelling East or West into Luton airport
Noise: planes from Luton are kept low due to the Heathrow Stack which increases noise levels on the ground.
Pollution: again because the planes are kept low due to the Heathrow Stack, this creates increased pollution.

I understand that expansion is necessary and that we live in a global economy requiring both business and leisure travel for which Luton is an import resource. However the proposed increase is too large and the consultation has been poor with insufficient recognition of the ground impacts and little is being done to address the impacts on the ground.
