YOUR COMMENTS ON THE CASE

These comments are in addition to those I submitted on the Luton Planning Portal. I still confirm my objection to the application. The aircraft noise, fly parking and, I assume, the pollution are all gradually returning to the level prior to the Covid shut down and still the Council, the Airport operators and the airlines are applauding this recovery even though it may continue to breach the Councils own planning requirement which was agreed in, I think, 2013/14 and has been circumvented ever since.

If it's permitted I would also like to add my frustration with my local government representatives, red, blue or orange together with my parliamentary representative who, I feel, are rooting for the expansion of the Airport in various ways and leave those of us, that are directly adversely affected by the Airport, with no official group who would forcefully put forward my, and others, concerns regarding this.
