

18 march 2023

Dear Mr Secretary of State For Transport
PROJECT HIF1 - REFERENCE 3.19

me, my wife and five children are living here at New Farm which we much enjoy since we have moved in quite recently and the kids can run around and have fun etc.

we hear that this all going to be upset for me and my whole family by road building and compulsory purchase and all sorts of other changes which will ruin our lives for it looks like years to come, what with the noise and the machinery and everything else and will make it more difficult for us to walk the kids to school as we do every morning, though the older two cycle, which sounds as if it's going to be more dangerous too.

Me and my wife don't know if protest from people like us will be listened to by people like you, but we do hope so as we are feeling very upset and will have all our lives totally disrupted please do something to stop it!

Best wishes

D. Page J. L. Mills
