To whom it may concern,

Re: Network Rails (Leeds to Micklefield Enhancement) Transport and works act order.

I'm writing regarding the above Transport and works act order to which I object for the following reasons...

(I) Peckfield Level crossing closure.

This closure will have a detrimental effect on the village, workers and walkers alike as it is used by many as a connection between the South and North of the village for work, school, shop and recreation. Should the crossing be closed a foot bridge would be required. Especially as there has been a large increase in the number of people living on Pit Lane. I myself use this crossing on a regular basis to walk the dog.

The provision of the replacement bridleway in the recreation ground will have a detrimental effect on the community as would remove land that is currently used by many different sporting clubs across the area of East Leeds. As well as it been unsafe for horse user due to the recreation ground been used for dogs been off the lead.

Your Faithfully,

Louise Donoghue
