Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: This Bridge is just another bridge to network rail but not to me or the local community. If you take the time to actually go and look at it instead of just going another one needs to come out via Google maps. Then you can see the labour and love with which it was made. Including the skilled stonemasons marks still to be seen in the stone. Shame on you network rail first the trees, then a hideous fence let's just homogenise the whole thing then paint it beige.
