Thank you for your request for advice received on 18 December 2018 together with the fee of £ 0.00. A VAT receipt is attached.

In line with your request and the fee paid, you should receive a response by 1 Jan 2019 .

The response may be constrained by the extent of the information you have provided. Personal Data (personal phone number, email or signature) and Confidentiality

Whilst we do not initially publish pre-application submissions, we may be obliged to release in response to a formal request under E I Regulations and we will publish the information if a subsequent planning application is submitted. If you do not wish personal data to be shown you will need to consider this before sending in your PREAPP request and if necessary providing a copy or replacement with the data removed. This does not include personal data supplied on the pre-application form itself.

This therefore can also affect any future correspondence that you send us in connection with this pre-application which would also be published online. Business phone numbers and email addresses are not personal, but anyone to whom the correspondence is copied may have a personal email address. You therefore may wish to send blind copies by using the BCC facility or remove from correspondence.

If you are an Applicant and you do not want your personal data published please send correspondence as an attachment without that information.
