INTRODUCTION

Welcome to this exhibition, which presents the proposed M4 Corridor around Newport scheme's draft Orders, Environmental Information and associated reporting.

WHAT ARE DRAFT ORDERS?

The Welsh Government are publishing draft Orders, which comprise the legal powers to establish a line, modify the side roads, purchase land and put in place any other rights needed to deliver the scheme. Supporting the draft Orders are schedules, documents and drawings.

ENVIRONMENTAL INFORMATION

The Environmental Statement identifies the main environmental effects and describes the proposed measures to avoid, remedy or reduce effects and provide environmental enhancement where practicable. A separate Statement to Inform an Appropriate Assessment describes the likely effects on International and European Nature Conservation Sites.

All available documents and information can be viewed on our project website www.gov.wales/m4newport.

Y CYNLLUN ARFAETHEDIG / THE PROPOSED SCHEME

Yn dilyn ymgynghoriad cyhoeddus, mabwysiadodd Gweinidogion Cymru'r 'Cynllun' strategol ar gyfer Coridor yr M4 o amgylch Casnewydd ym mis Gorffennaf 2014.

Mae'r cynllun yn cynnig rhan newydd o draffordd rhwng Cyffordd 23 a 29 i'r de o Gasnewydd; ynghyd â mesurau ategol, gan gynnwys: Gwelliannau i ddiogelwch, trefniadau mynediad a'n gallu i reoli traffig drwy aiddosbarthu llwybr presennol yr M4 rhwng Magwyr a Chas-bach yn

gefnffordd; Ffordd liniaru i Gyffordd 23A, y rhwydwaith ffyrdd lleol a mynediad i'r cyfleusterau parcio a theithio arfaethedig wrth orsaf reilffordd Cyffordd Twinnel Hafren â chysylltiad M4/M48/B4245 newydd; Darparu seilwaith cerdded, seiclo a marchogaeth cyfeillgar.

Byddai'r cynllun arfaethedig yn costio tua £1 biliwn ac yn cael ei ariannu drwy gyfuniad o fenthyciadau gan Lywodraeth y DU a chyllidebau Trafnidiaeth Llywodraeth Cymru.

Following public consultation, the Welsh Ministers adopted the strategic 'Plan' for the M4 Corridor around Newport, in July 2014.

The scheme proposes a new section of motorway between Junctions 23 and 29, south of Newport; alongside complementary measures, including: Improvements to safety, access arrangements and our ability to manage traffic by reclassifying the existing M4 between Magor and Castleton as a trunk road; Relief to

Junction 23A, the local road network and access to the proposed park and ride facilities at Severn Tunnel Junction railway station with a new M4/M48/B4245 connection; and Providing walking, cycling and equestrian friendly infrastructure.

The proposed scheme would cost around £1 billion and would be funded through a combination of UK Government borrowing, and Welsh Government Transport budgets.

GORCHMYNION DRAFFT / DRAFT ORDERS

Gorchmynion Drafft yw'r pwerau i sefydlu llinell, addasu'r ffyrdd ymyl, prynu tir a rhoi unrhyw hawliau eraill sydd eu hangen i gyflawni'r cynllun ar waith.

Nodir y dogfennau a restrir isod mewn llyfrau o amserlenni a darluniau yma heddiw.

DOGFEN	BETH MAE HYN YN EI OLYGU
Cynlluniau Cyfeirio Tir	Mae'r rhain yn nodi'r tir y byddai ei angen er mwyn adeiladu a chynnal y Cynllun a gwneud y gwaith lliniaru amgylcheddol gofynnol ar ei gyfer.
Gorchymyn Cynllun Drafft	Er mwyn darparu rhan newydd o'r draffordd ddeuol â thair lôn rhwng Magwyr a Chas-bach i'r de o Gasnewydd, ei ffyrdd ymuno ac ymadael newydd a ffyrdd cysylltu. Mae hefyd yn darparu ar gyfer pontydd sy'n croesi dyfrffyrdd mordwyadwy.
Gorchymyn Amrywio Cynllun Drafft	Mae'n aildosbarthu'r rhannau amrywiol o draffordd bresennol yr M4 rhwng Magwyr a Chas-bach a thraffordd yr A48(M) rhwng Cas-bach a Llaneirwg. Er na fyddai'r rhannau hyn yn draffordd mwyach byddent yn parhau i fod yn gefnffyrdd.
Gorchymyn Llinell Drafft	Er mwyn darparu ar gyfer y rhan newydd o'r gefnffordd sydd ei hangen ar gyfer y cynllun.
Gorchymyn Ffyrdd Ymyl Drafft	Er mwyn cau, gwella neu newid rhai rhannau o ffyrdd, llwybrau troed, llwybrau seiclo, cilffyrdd, llwybrau ceffylau a mynedfeydd preifat sy'n bodoli eisoes, er mwyn adeiladu priffyrdd newydd a darparu mynedfa breifat newydd.

Cyhoeddir y Gorchmynion ar ffurf ddrafft ac maent yn rhoi cyfle i unrhyw unigolyn neu sefydliad eu gwrthwynebu, eu cefnogi neu awgrymu dewisiadau amgen iddynt. Fel rhan o'r broses gyfreithiol, bydd Llywodraeth Cymru yn ystyried pob un o'r ymatebion i'r Gorchmynion drafft ac wedyn yn penderfynu p'un a ddylid cynnal Ymchwiliad Lleol Cyhoeddus.

Draft Orders are the powers to establish a line, modify the side roads, purchase land and put in place any other rights needed to deliver the scheme.

The documents listed below are set out in books of schedules and drawings here today.

DOCUMENT	WHAT THIS MEANS
Land Reference Plans	These set out the land that would be required to build, maintain and provide the environmental mitigation that would be required for the Scheme.
Draft Scheme Order	To provide a new length of dual 3-lane motorway between Magor and Castleton to the south of Newport, its new slip roads and connecting roads. It also provides for bridges passing over navigable waterways.
Draft Scheme Variation Order	Reclassifies the various lengths of existing M4 motorway between Magor and Castleton, and the A48(M) motorway between Castleton and St Mellons. Although these lengths would cease to be motorways they would continue to be trunk roads.
Draft Line Order	To provide for the new length of trunk road required for the project.
Draft Side Roads Order	To stop up, improve or alter some lengths of existing roads, footpaths, cycle routes, byways, bridleways and private accesses, to construct new highways and provide new private means of access.

The Orders are published in draft and provide the opportunity for any person or organisation to object, support or suggest alternatives. As part of the legal process, the Welsh Government will consider all of the responses to the draft Orders and then decide whether to hold a Public Local Inquiry.

TAKING INTO ACCOUNT YOUR PREVIOUS COMMENTS

Below are frequently raised issues and how we have taken them into account.
If you have another query, please ask a member of staff.

YOU SAID	WE DID
You asked for more information about the proposed walking, cycling and equestrian measures.	We have spoken with stakeholders and our proposed measures to maintain and improve public rights of way and accesses are reported in a Non-Motorised User Context Report, and Chapter 14 of the Environmental Statement 'All Travellers'.
You wanted to know more about alternatives, and different routes, that have been considered.	The background of the project and the alternatives we've considered is set out in Chapter 4 of the Environmental Statement 'Scheme Development and Alternatives Considered'. Previous reporting on alternatives is also available.
You asked about the likely air quality effects, both during construction and after the project.	We've collected air quality data and done assessments. The results are now reported in Chapter 7 of the Environmental Statement 'Air Quality'.
You asked for information about the likely noise effects, both during construction and after the project.	When we last visited you in September 2015, we were collecting noise data and undertaking associated assessments. The results are reported in Chapter 13 of the Environmental Statement 'Noise and Vibration'.
You asked for information about the likely visual impacts and mitigation, such as the screening of the new road with landscaping and planting.	We've carried out assessments and the results are reported in Chapter 9 of the Environmental Statement 'Landscape and Visual Effects', which includes 'photomontages' of views with and without the project.
You asked for information about the likely effects during construction, including impacts on traffic, dust and vibration.	We've looked at how the Scheme could be built and spoken to local people and organisations about access arrangements. Taking into account your comments, a Buildability Report has been prepared and is reported as an appendix to Chapter 3 of the Environmental Statement. Drawings are available to show you the temporary working areas we would need.
You asked for more detailed drawings, at a larger scale, of the proposals.	Taking into account your comments, we have developed the design and land requirements of the project. In addition to a project diagram and context diagram, with some more detailed drawings of the junctions, we have also prepared a number of draft Orders and land reference plans. These show the proposals in more detail.
You asked for more interactive displays at exhibitions.	Paper and electronic copies of information are available here, at deposit points and online, and staff are available to talk you through it. As well as a 'drive through' model we've now produced an interactive model, which allows you to see what the project would look like from different locations.
