Subject: New Level Crossing on A21

I wish to register my strong objections to the proposed level crossing on the A21 south of Robertsbridge. This major road, already cited as the most dangerous in the country, has long been neglected for improvement by central government. Failure to forward plan when neglecting to provide an exit from the M26 to the A21 has blighted many villages as heavy traffic struggles to make the west east journey from Dover. The decision for dualling of the A21 from Tonbridge to Tunbridge Wells, recently completed, was delayed for so long costs were eventually hugely inflated.

Any minor delays on the long single carriageway sections, like a parked vehicle, breakdown, stopping refuse lorry etc cause huge backlogs. To allow a level crossing over this major route involving up to 14 closures per day would cause further major delays on a highway already overused, let alone the massive disruption to local inhabitants. As a resident of Etchingham and Hurst Green I urge you to reject this proposal.

Mrs Jenny Jones
