Subject: RVR madness

Dear Sir

You will have received many letters and e-mails about the proposed extension of the RVR to Robertsbridge , mentioning traffic congestion especially on the A 21 , three extra level crossings , danger of increased flooding , lack of car parking , loss of flora and fauna in an AONB, and an outrageous CPO for mature and productive farm land . I want to point out the huge effect this is having on the two farming families who will have their land taken against their will . My son is married to a member of the family and he is witnessing first hand how this is causing the family great distress and frustration . Please think of the local people who will be effected every day , rather than the tourists who come for such a short period of the year .

Yours faithfully

Jane Ainslie
