Subject: RVR TRAIN LINE EXTENSION

Dear Sir/Madam,

I am emailing in support of the extension to the RVR train line and new level crossing,

I live in [redacted] and use the A21 all week to commute to London and back so know the road extremely well and would be more than happy to wait at the crossing a couple of minutes to see our British history go past!.

Me and my family regularly visit the Tenterden steam railway and we love it and its always a busy place for familys,
the thought of having a more local line to visit would be great and many people would agree and love to see the old line brought back to life.

I am unsure why so much consideration is being given for a few non local motorcyclists that come once a year for May day who only come to Hastings to drive there bikes recklessly and cut up traffic and cause accidents,
in any case i am sure that a couple minutes wait wont delay there day to much!!!

We need more local attractions to the Robertsbridge area that currently has no attractions and is totally bypassed by most tourists and local people, so im sure the historic village would benefit from the steam line.

I hope my comments help support the permissions for the new crossing.

Jack Carrick
