

SUPP/58

21 MAY 2018

PRIVATE OFFICE

Dear Sir

I am writing to you in regard to proposed Rother Valley Railway (Bodiam Robertsbridge Junction) Transport + Works Order.

I wish to state that I am very much favour of the application as I believe be of immense benefit to the whole. It will open up a part of the country which has many tourist attractions but is not served by public transport. People will be able to travel from London by train so save car journeys + clogging up narrow roads.

It will also create job opportunities give young people skills which will enable them to get better jobs.

The impact of a level crossing on A 21 will not be great as no trains run at peak times + few at other times.

I hope you will see fit to grant application.

Yours faithfully,
