

**CAMBRIDGESHIRE COUNTY COUNCIL POLICY  
ON  
PUBLIC PATH ORDER APPLICATIONS TO DIVERT OR EXTINGUISH  
PUBLIC FOOTPATHS AND BRIDLEWAYS**

APPROVED BY CABINET 25<sup>TH</sup> May 2010

**1. Applications**

Applicants are advised that prior to formally submitting their diversion or extinguishment application to the Rights of Way & Access Team, they must continue to complete informal consultations with the prescribed bodies (see below). This will identify at an early stage whether the proposal is likely to be accepted by the public, and all responses received should be attached to the application form.

**2. What the Council will do**

The Council will:-

- Consider all applications for diversion and extinguishment orders received on the Council's standard application form
- Consider all applications as appropriate and in accordance with its biodiversity duty under section 40 of the Natural Environment & Rural Communities Act 2006
- Determine all applications in accordance with its prioritisation programme.

*NB Where an alternative route is to be provided (for example where a path cannot be technically diverted but has to be changed using concurrent extinguishment and creation orders), the criteria will be slightly different in accordance with relevant legislation but will largely follow the diversion order criteria.*

**3. Criteria for Diversion Orders**

The Council will make orders where the following criteria are met:

- i. Pre-application consultations have been carried out with the prescribed bodies.
- ii. The existing route is available for use and any 'temporary' obstructions have been removed, in order to allow a comparison to be made. Any request for exemption will be decided by the Director Highways & Access as to whether or not that is appropriate.
- iii. A suitable alternative path is provided for every path that is to be diverted.
- iv. The proposed new route is substantially as convenient to the public as the original
- v. The proposed new route is not less convenient for maintenance than the original
- vi. No objections are received to the proposals during the statutory consultation period prior to making an order. However, the County Council will review this criterion in individual cases in light of objections and potential public benefit of the proposal.

- vii. The maintenance burden on the County Council is no greater than that of the original. If the maintenance burden is greater, the landowner may be required to enter into a maintenance agreement with the County Council.
- viii. A minimum width of 2m is provided for a diverted footpath, and a minimum width of 4m for a diverted bridleway. In exceptional cases, e.g. cross-field paths, it may, taking into account all the available facts, require such a width as it considers reasonable and appropriate.
- ix. That all the works required to bring the new route into operation are carried out at the expense of the landowner and to the County Council's specifications unless otherwise agreed.

*Please note that the County Council reserves the right to refuse to make an Order where it feels the criteria of the legislation are not met, even where consultation responses suggest there are no public objections.*

#### **4. Criteria for Extinguishment Orders (s118 Highways Act 1980)**

The Council will make orders where the following criteria are met:

- i. Pre-application consultations have been carried out with the prescribed bodies
- ii. Section 118 of the Highways Act 1980 is satisfied i.e. the applicant must demonstrate that the path is not needed for public use
- iii. The confirmation test of section 118 (i.e. how much would the public use the route if it was not extinguished) is met
- iv. The applicant provides clear evidence to show the path is not needed for public use, for example in the form of letters from the Parish Council, and all affected landowners/occupiers.
- v. 'Temporary' obstructions have been removed to allow the public the opportunity of using the route so that 'need' can be assessed, as far as reasonably possible. We will therefore not make an order where a path is 'temporarily' obstructed, but will expect the path to be opened up and made available for public use for a period of not less than 2 months, to see if the public wish to use route. Any request for exemptions will be decided by the Director Highways & Access as to whether or not that is appropriate.
- vi. Where there is a desire line on the ground that is not on the definitive route because that is obstructed we will consider that to be evidence of a desire to get from points A-B, and will require the definitive route to be opened up or diverted onto the desire line or another mutually agreed route.
- vii. The County Council will not automatically consider that a route is not needed if there is a parallel route, as parallel routes can serve a useful purpose especially if close to a village by providing a short circular walk for small children, or people with reduced mobility.

*Please note that the County Council reserves the right to refuse to make an Order where it feels the criteria of the legislation are not met, even where consultation responses suggest there are no public objections.*

## List of Statutory Consultees

Ramblers Association 2 <sup>nd</sup> Floor Camelford House 87-97 Albert Bank London SE1 7TW
British Horse Society Stoneleigh Deer Park Kenilworth Warwickshire CV8 2XZ
Auto-Cycle-Union Auto-Cycle-Union House Wood Street Rugby Warwickshire CV21 2YX
