CRICKET FIELD ROAD RAIL CROSSING

Dear Sirs .

We have lived in Newmarket almost 50 years near the railway, and have used the weatherly rail crossing on many occasions over this time. It cannot be closed, its a very good access to the town for so many people, that part of town needs the short route to town, now the food shops are out of the high street its such a long round trip for the residents in that area. It must remain open to all, as its been for so long now.

Thanking you .
