Caroline O'Neill
Dear Madam

I use the crossing daily with my wife it saves us a very long walk down to the town and the shops ,we have used the crossing since the 1960 s

Like us there are many older residents from this side of town who use this crossing

I am also concerned that the public who use it for taking their young children to school will not walk the long way around but will start to use their cars which we all know is not a good thing to do

What about allotment holders and football supporters who are on the wrong side of the tracks

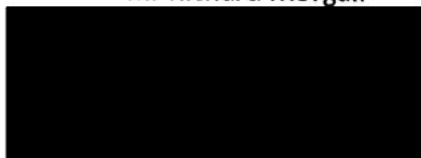

I think serious consideration should be given to build a bridge now not leave it until it becomes to expensive in the future

There is plenty of space and a modern structure wouldn't look out of place

Not a lot is done in this town for the benefit of its residents how about starting now and give us what we want please

Yours Faithfully

Mr Richard Morgan
