Dear Caroline O'Neill,

Newmarket Weatherly Railway Crossing

This is a very highly frequented crossing used by hundreds of people every day! the idea of closing it would put hundreds of people a day at huge inconvenience!

We very much hope that your department will carefully reconsider any proposal to close this crossing, and will keep it open for the public good. If this cannot be done - it must be replaced by a bridge which will allow people, prams & scooters to be taken over it.

With appreciation for your time and help

Yours Sincerely

40 St Peters Close, Moulton, Newmarket, Suffolk CB8 8SD
