Subject: Rother Valley Railway Application for a Transport and Works Act

ROTHER VALLEY RAILWAY TRANSPORT AND WORKS ACT APPLICATION
Extension of railway Robertsbridge to Bodiam East Sussex

We wish to **object** to this application. It will provide no improvement to the transport infrastructure of the area but will have adverse effects on the life of Robertsbridge.

It will:

- Destroy much wildlife habitat
- Add to the already significant flood risk
- Create major problems with parking in the village which cannot be alleviated by the proposal to create overflow parking in a flood plain
- It will create major traffic problems, particularly on the A21. Putting a level crossing on what is already one of the most dangerous roads in the country cannot be justified for the sake of a 'hobby railway'
- It will bring little or no economic benefit to the village

We request that you refuse this application.

Sheila Margaret Allen
David John Allen
