Re: LEVEL CROSSING PROPOSAL ON A21.

Dear Sirs.

I would like to register my own objection to the proposed level crossing over the A21 at Robertsbridge.

As the only major road link from outer London direct route to Hastings I think this should remain free of any issue which will certainly cause more delay to what should hopefully be a strait through journey.

Recent years have seen an improvement in the efficiency of this road eg - ring road diverting traffic from Lambethurst.

A level crossing, 'supposedly' only used occasionally will cause obstruction and delays, there are no 'quiet times' on this road except perhaps during the night? when it would be realistic to stop traffic.

Please stop this ridiculous proposal. We need more improvement not delays.

Thank you for reading this letter.

Kind regards
