Ref E41

Dear Sir,

I am writing to protest strongly on the closure of the Poget Road rail crossing in Waverne. I do not think this crossing affects train times as it is either slowing down or gathering speed when it is near the crossing. There has never been any fatalities and now a solar panel has been fitted to alert people of the train approaching.

If this crossing is closed it will affect lots of people, in

effect it will split the village.

People who cannot climb a very steep hill in Queens Road and a dangerous unmade road in Angelsea Road, which has no footpaths and is full of potholes and is badly lit after dark. There are also many lorries using this road for access to the Broomers Centre in Brook Street.

I would appreciate you taking a look at this impending closure.

Yours sincerely,

Mrs Jeanette Parsons,
