enjoy walking these paths, our safety record is very good. I fully understand network rail's need to provide safety, which in fact is long over due, considering they've had over 20 yrs. since walking on the rail franchise. They continue installed flushing red - burning lights with same in level - crossings. Network rail say, they will provide an alternative route. I hope this doesn't mean we have to walk on the track. While Notley has an ongoing issue with spreading, so this could lead to serious injury or even death as well. Whatever Network rail decide, I hope it will benefit us all, so we can continue to enjoy the countryside. Thankyou for your time.

Yours faithfully

With reference to the proposed network rail (Essex & others) level crossing reduction order, I'm from the district of Braintree, & have lived in the parish of White Notley for most of my life. I'm sending an objection to the above order. The order will authorise the stopping up of our footpath, level crossing 1st Esb cranes Noz, E37 Essex Way. Public right of way number EX112018 EX112013. If our village is to square any path, I would like network rail, with your help, secure the Essex Way route ~~137~~ which links up with crossing temple. Myself & many people, families, have over many years, & still
