

SUP/075 – S Neave

My family & I are looking forward to taking the train to Bodium on our yearly & sometimes twice yearly visits.

A reinstated rail link will mean we can avoid 110 miles of tedious & polluting driving from London.

I know my two grandchildren would really enjoy a steam train ride & it would be fun for us grownups to watch their pleasure too.

So please continue to tell us about progress.

A small but pertinent point.

A train link to Bodium for people visiting the Bodium area & the castle from the South & some locations east & west will mean less road traffic on the bypass & over the proposed level crossing. Although our pilgrimage from Northish ( London) normally turned to Bodium before the bypass.
