Dear Sir/Madam

Planning Application 18/P/5118/OUT - Bristol Airport Limited

This further objection from Wrington Parish Council relates to the Roadmap submission by Bristol Airport Limited to reduce its carbon emissions to a 'net zero' by 2050, which was launched on 24 July 2019.

This Council has read in detail the Road Map document and also the submission made as 'Addendum 9' by the Parish Councils Airport Association and is totally supportive of the latter and its comments made by the Association on behalf of its member Councils.

The Addendum 9 continues to oppose the airport's expansionist plans and offers a wealth of evidence to counter and dis-abuse the airport's claims and thus its overall strategy to achieve carbon neutrality whilst yet continuing to ignore the environmental and health effects of pollution from aircraft themselves, or the impacts of vehicular emissions from its passengers.

The Road Map plan considers only those emissions from the airport business's activities themselves and yet ignores totally the major huge pollutant which is aircraft emissions. As a consequence, this Council considers the Road Map plan to be irrelevant in the overarching scheme of the airport activities and to produce a minimal (not to say meaningless) effect on the environment.

Yours faithfully

(via email)
Judith Bishop
Assistant Clerk
On behalf of Wrington Parish Council
