

INQ/135

We are happy that trees have been planted on the disputed ground and feel it is a great use for the land. The land is still in ownership dispute but we have decided not to pursue it at the moment to avoid unnecessary costs. I also feel the fact that we have this dispute highlights the unneighbourly attitude of the Rother Valley Railway. We have gone into this arrangement in an amicable way, giving them the opportunity to demonstrate that they can work fairly and collaborate with other local businesses. I feel this point sadly demonstrates their inability to do so.

**Kind Regards**

**Anna Eastwood**
