YOUR COMMENTS ON THE CASE

My wife and I object to this application and support its refusal as follows.

1. There should be no further increase to night flying. The requested increase is both extremely excessive and unfair. People should be entitled to a reasonable night's sleep between 11.30pm and 6am. The request for no seasonal restrictions would literally be a nightmare.
2. The proposed improvements to the roads are far too restricted eg the other access roads should be significantly improved such as the A370.
3. The risks are very high for such an expansion (the virus surely emphasises that). NS should perhaps encourage more secure investments. With all that building it could prove to be a white elephant, and in the meantime it would cause much disruption and damage.
4. The proposals would add greatly to the pollution in this area with the significant increase in flights and traffic. No doubt night flying would offer lower prices and attract passengers from other airports eg Cardiff and add to all the problems.
