

OBJ-002 B Kitson

Mr B Kitson

I wish to object on grounds of finding it impossible to confirm which footpaths and bridleways are to be closed (temporarily or permanently) or diverted, I have accessed the planning application documents <https://www.networkrail.co.uk/running-the-railway/railway-upgrade-plan/key-projects/transpennine-route-upgrade/huddersfield-to-westtown-dewsbury> and currently have various PDF's open including a 428 page NR08 Book of Reference, a 62 page NR09 Deposited plans document, etc, etc. I can not locate a simple easy to understand summary of the information I require, I have worked in the utility industry for the last 30 years and am very familiar with planning applications and map reading, if I am struggling then I find it hard to believe the regular "man in the street" could understand the documentation.

I look forward to hearing your response

Regards

Brendan Kitson
