To whom it may concern

Whilst I support the development of the Northumberland line and recognise the positive economic impact it will have on the area I would like to make the following points and hope you will take them into consideration when carrying out the development work .

- The road outside the Mares close cottages is relatively narrow and we are concerned about our heavy plant will access the railway line .
- The road outside the cottages is not adopted by Northumberland county council .It is not clear who owns the road .The residents of the cottages have in the past paid for maintenance of the road .We would expect any damage to the road and surrounding areas caused by vehicles associated with the development to be made good .
- The cottages use liquid propane gas for heating and hot water-access for deliveries is essential.
- The occupiers of the cottages park their cars outside of the cottages there is no other parking options .We are concerned that large vehicles and associated plant using the narrow road have the potential to cause damage to cars .We would appreciate discussions on how this risk might be mitigated

Yours sincerely
S Shrubb
