Dear Sir/Madam,

We represent British Volt, who are developing a new battery production facility at Blyth, Northumberland, located on the branch lines served by the Northumberland line. The new plant is considering use of the rail line as part of its infrastructure development.

British Volt welcomes the project and would be grateful if it could be consulted on any rights affecting users of the branch lines covered by the TWAO application. Until all rail user rights are finalised British Volt reserves its rights to make representations to the Examination. We are also in direct dialogue with the Northumberland line team.

Please forward all queries for my attention at this email address or the postal address below at Bury House.

Regards

Peter Frost

Director
