Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This variation notice amends the waste codes that can be accepted on site; several waste codes have been removed from the list of permitted wastes to align with the waste types detailed within 'The Landfill Tax (Qualifying Material) Order 2011'. Table S2.1 has been amended to include an additional restriction/notes that states all waste accepted must be listed within the Landfill Tax (Qualifying Materials) Order 2011 at the request of the operator; Table S2.2 has also been amended to include an additional note that states soil includes naturally occurring sands and clays.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
