Subject:

object to this application:

Too much traffic already on A1057, particularly at peak hours..on single carriageway rd
Danger of trucks turning right into the site
Increases flood risk to local properties.
Bromate contamination...much too risky to excavate when the plume location is unclear and moving
Increased silica dust in the air dangerous to children and the elderly
Too many gravel pits are in this area, there are alternatives in other parts of Hertfordshire which are closer to large building projects and would save haulage
unacceptable noise and disruption due to heavy traffic on a fairly narrow and already busy road
Graham and Pat Moore
