

**THE NETWORK RAIL (HUDDERSFIELD TO WESTTOWN
(DEWSBURY) IMPROVEMENTS) ORDER 20[]**

PUBLIC INQUIRY

NOTICE OF THE CLOSURE OF THE INQUIRY

The Environment Agency has today withdrawn its objection in relation to the Flood Risk Assessment prepared by Network Rail as part of the Environmental Statement submitted with the application for the Transport and Works Act Order. As a result it will not be necessary for the Inquiry to be resumed on Thursday 9 December to consider this objection as was provisionally agreed when the Inquiry was adjourned on Friday 3 December.

I give formal notice that the Inquiry is now closed with immediate effect.

No additional documents should be submitted to the Inspectors after the issue of this notice. Any further correspondence concerning the matters considered at the Inquiry should be directed to the respective Case Teams in the Departments for Transport (in respect of the Order, deemed planning permission and the Certificates requested under S19 of the Acquisition of Land Act 1981) or the Department for Levelling Up, Housing and Communities (in respect of the applications for Listed Building Consent).

Paul Singleton

INSPECTOR
