---

Dear Sir/Madam,

I write in connection with the above consultation on the Cambridge South Station project. I have the following questions that I would like your response on:

1. Please can you advise if consideration by way of an assessment has been carried out on the potential impact of building Cambridge South Station will have on local stations on the network? In particular, has the assessment examined the potential for an increase in people choosing to leave their cars at local stations in order to catch a train to Cambridge South?
  - a. If this has not been considered, then when will this be examined? Also, has any modelling been carried out to examine where their demand for the station will come from and if it will be via local train stations?
  - b. If point 1 has been considered, and there is an impact, then what is being proposed to mitigate the impact? Have there been any considerations for supporting an increase in local station car parking?

I look forward to hearing from you on the above points.

Regards  
Sav
