

INQ-64

Cambridge South Infrastructure Enhancements

Inspector Adjournment Note 2

I have received a request from Network Rail seeking additional time in order to finalise draft conditions and some further amendments to Article 35 of the Order. I appreciate that agreeing these matters with the Council prior to submitting the documents would be beneficial. There is however a balance to be struck between reaching agreement and timeliness. In the circumstances I am prepared to allow a further week for the submission of the conditions and the amended draft Order. Should there remain any differences between the Councils and Network Rail after COP on Friday 11 March, Network Rail should submit the draft conditions and Order. Other parties, including the Council, will then have one week to comment on the submitted information, and Network Rail will have one week in order to submit any final response.

For the avoidance of doubt the revised timetable is:

Friday 11 March Network Rail to submit revised draft conditions and Order.

Friday 18 March Comments in relation to suggested conditions and draft order

Friday 25 March Final comments from Network Rail.

Lesley Coffey

PLANNING INSPECTOR
