Dear Mrs Vincent

Look.....I don't understand all the gobbledy-gook of planning permissions et al....

What I **do** understand, however, is our broken sleep patterns which seems to be getting worse and worse: with increased air-traffic post Covid and the need for open windows at this time of year.

it's not every night, to be clear...but increasingly we get woken by planes departing at about 5am and cargo planes sometimes in the middle of the night.(e.g .3am)

This, by all accounts is likely to get worse! Please stop it!

Yours sincerely

John Rose
