Dear Mrs Vincent

I have read the planned addendum to the environmental statement that Luton Airport has submitted to their original planning application, which will be put forward to the secretary of state.

My understanding of this document is that these changes will make a bad situation even worse in terms of noise from departing aircraft, for the inhabitants of Breachwood Green where I live.

I pointed out in my previous comments on the consultation, that in Breachwood Green we suffer with a totally unacceptable level of noise from departing aircraft over the village. The airport loaned me a hand held monitor to measure the level of noise which proved that it far exceeded the figures published by the airport.

I trust the inspectors will visit our village on a day that aircraft are continually departing eastward and experience the noise levels themselves. They will need to be prepared that they will not be able to hold a conversation.

Yours sincerely

Liz Thurlby (Mrs)
