

Note: Parking around the airport

In 2017 a consultation exercise was undertaken in the part of the Crawley and Wigmore wards most affected by airport parking. The consultation area is as shown on plan P1981-001-001

Residents were consulted on a number of possible solutions and asked to comment. In Vauxhall Park residents were asked whether they favoured the introduction of a permit parking scheme or not and an option of times and days of the week when it could apply.

Residents of the remaining area were offered the option of permit parking, but based on comments already received from residents and the Wigmore ward councillors were also offered a waiting restriction option including a choice of times of operation.

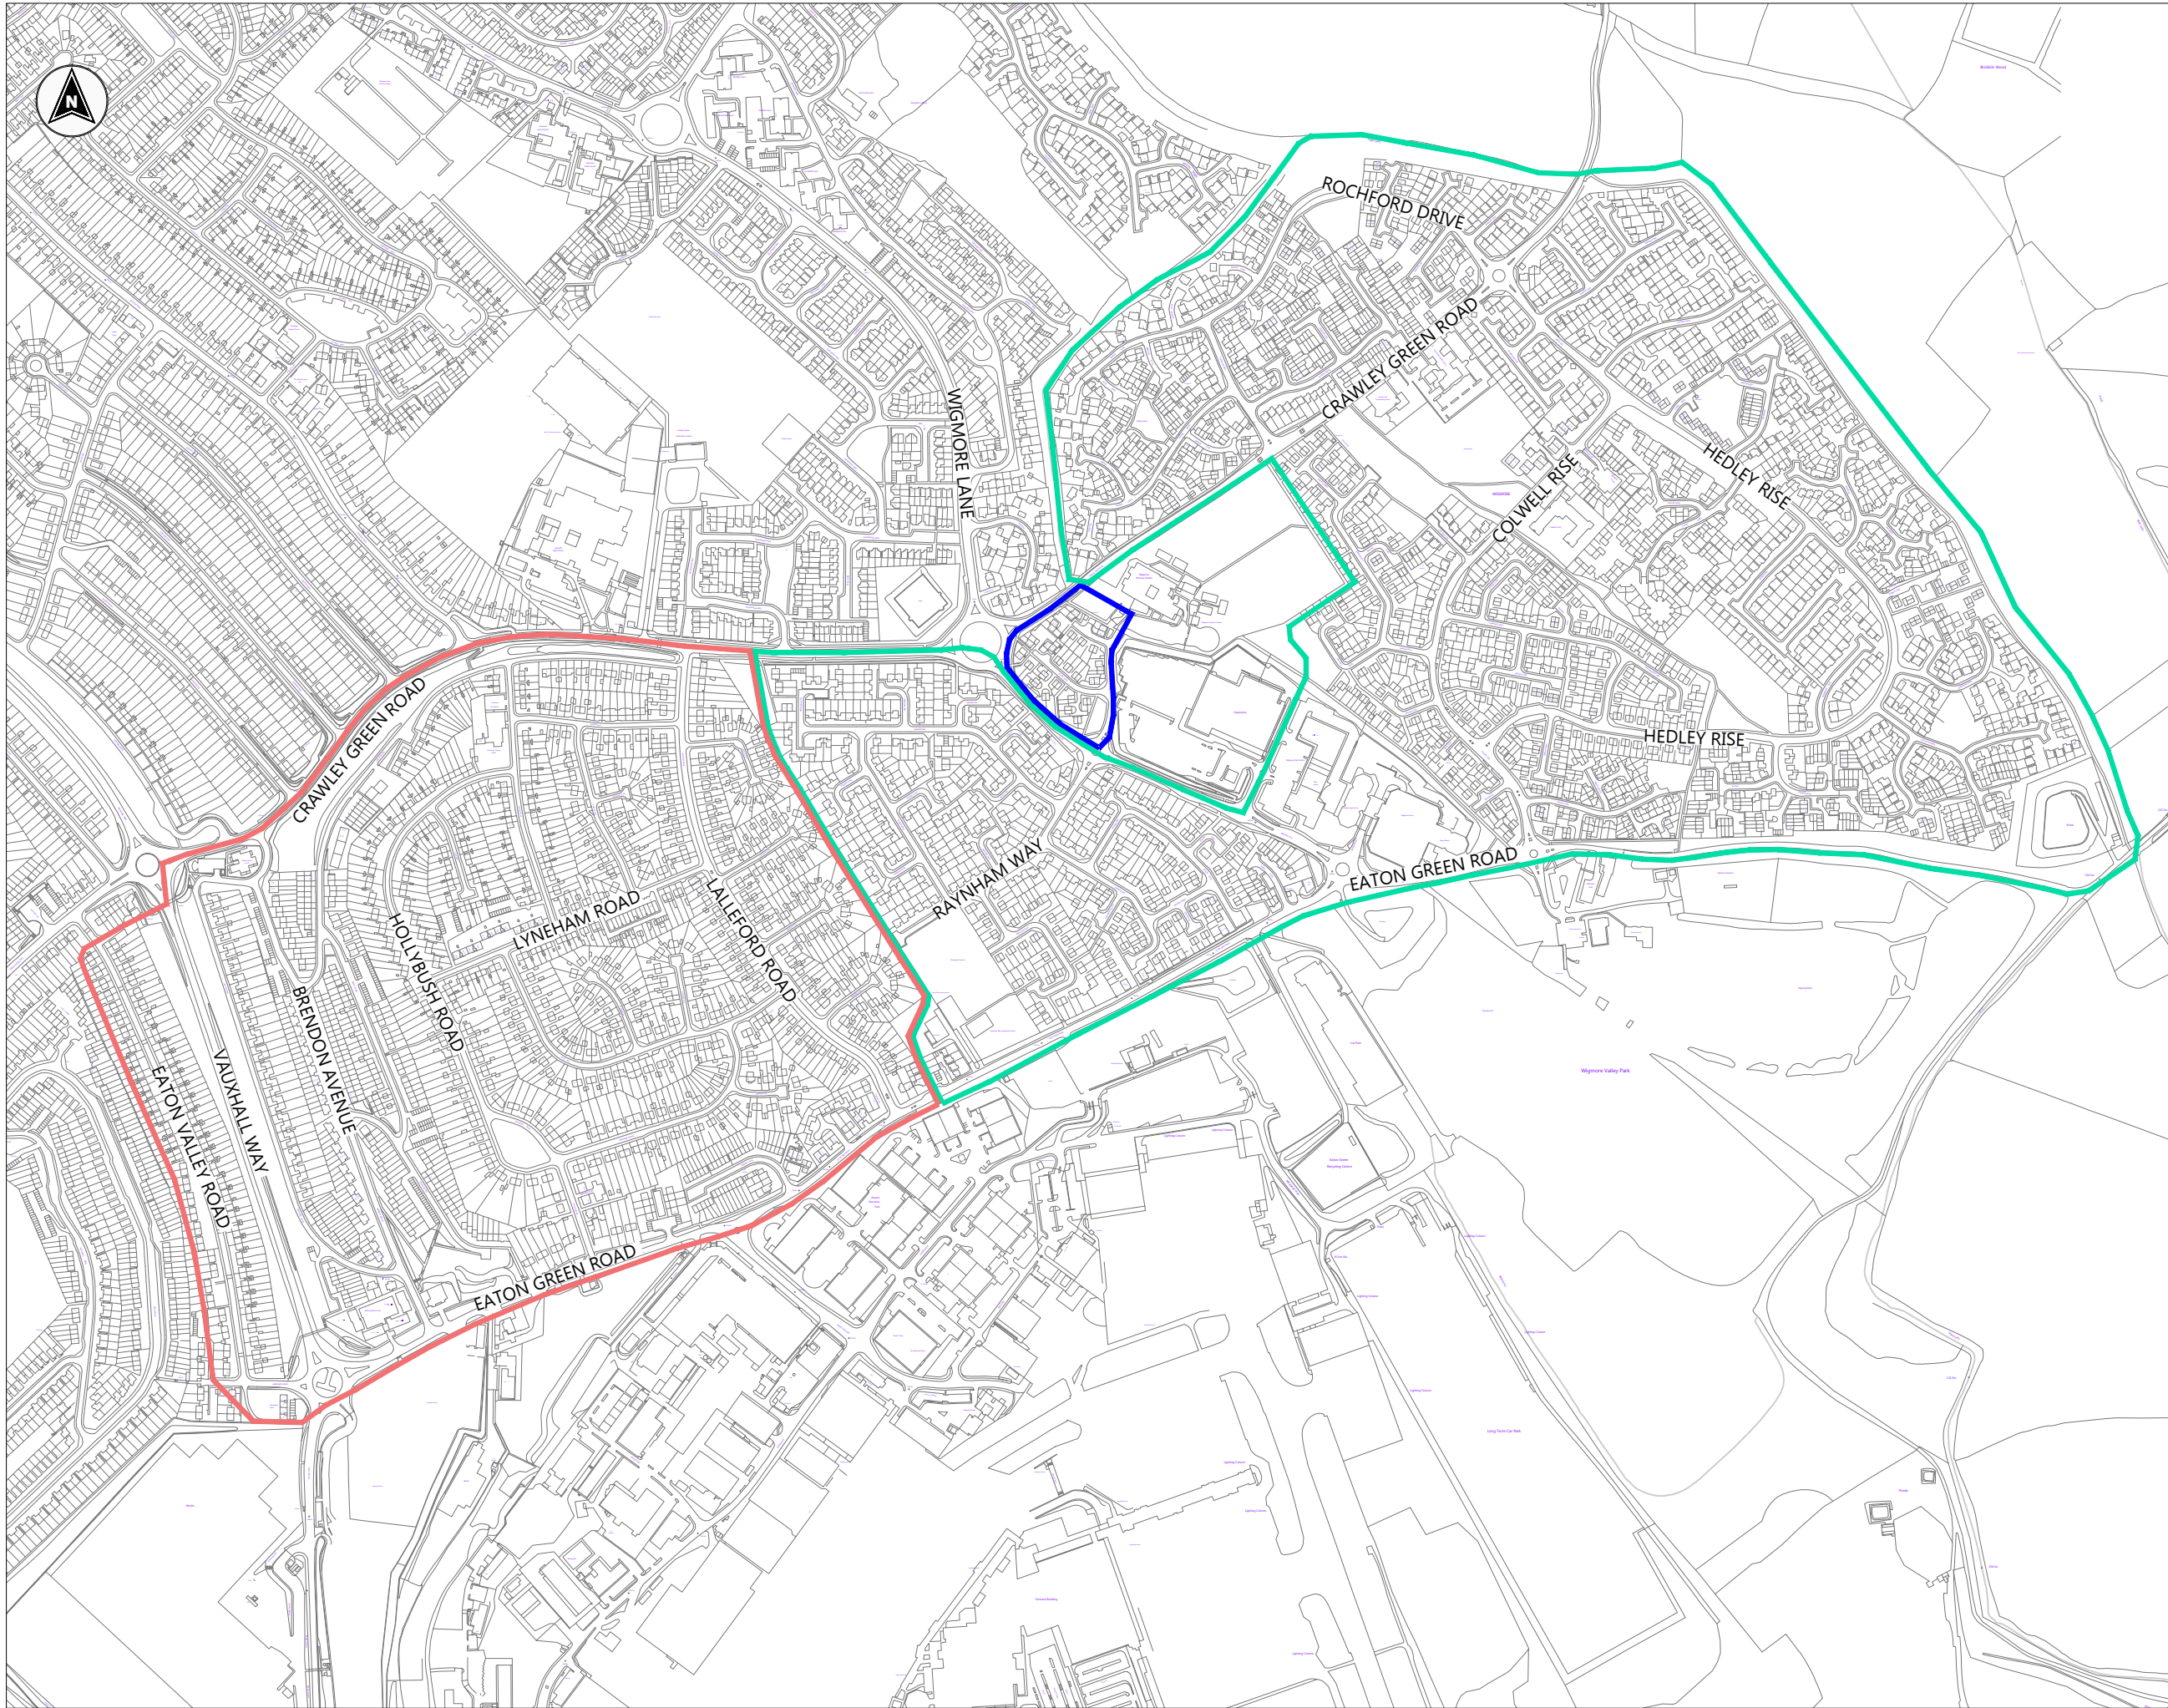

The results of the consultation were recorded and discussed with the ward councillors, portfolio holder for highways and the Corporate Director.

Based on the results of the consultation it was decided to introduce a permit parking scheme across the consultation area, however on notifying residents of the decision there was a considerable level of objection to the proposal outside of the Vauxhall Park area and it was decided to progress the scheme in Vauxhall Park only and delay the introduction in the Wigmore area indefinitely and monitor the situation.

The permit scheme has now been operational in the Vauxhall Park area since August 2021.

Restrictions in the remainder of the consultation area are unchanged and the situation is being monitored.
