

Luton Airport Jobs Numbers – Correction to INQ65

1 Introduction

1.1 There is an error in paragraphs 3.5 and 3.6 of INQ65 (Luton Airport Jobs Numbers – Post-Covid Baseline)

1.2 The paragraphs should read:

3.5 LLAOL has data on the number of successful applications for security passes over time – both for new passes and for renewals of existing ones. This does not correlate perfectly with employment numbers because it reflects:

- Only applications (ie it excludes existing passes that do not need renewing each year)
- Churn from people changing jobs (which varies over time)
- Growth in jobs, including in part-time working (which has increased and will therefore have increased the number of passes being used).

3.6 In the first eight months of the year there were around 3,400 successful applications for passes in 2019. In 2020 this fell to just over 2,000 and in 2021 to 1,250. In 2022 this has risen to 2,800.
