Dear Secretary of State for Levelling Up Housing and Communities

I was shocked to hear recently that the Lib Dem council in Twickenham is riding roughshod over a charity set up to run our local riverside gardens by issuing a compulsory purchase order to buy the land for luxury flats. The gardens are for everyone to enjoy the precious riverside frontage and are protected and provided for by a charity with a 125 year lease.

The costs of development are enormous and the loss of this idyllic riverside community space for financial gain is unacceptable.

Many thanks

Helen Edward
