Subject: Plans for Flats
Date: 18 December 2021 15:04:50

I am writing to strongly object to the proposal to build blocks of flats on Diamond Jubilee Gardens site in Twickenham, which was placed into a Charitable Trust in 2011 on a 125 year lease. How can you propose to overturn a Charitable Trust, which was in place to allow the people of Twickenham ongoing access to this site to ensure the green space could not be built on.

There are numerous reasons for my objections, however, the main one being the residents in Twickenham are already living in built up areas, with very little green space, for thousands of residents. Our roads are overcrowded as are our local amenities and infrastructure.

To be remove a much loved and used outdoor facility will be a huge loss to people, like me, who use these facilities on a very regular basis.

I can assure you if this LibDem plan is pushed through, your Party will not win the next election when it comes. The people of Twickenham will not allow yet another piece of our much loved leisure area to be destroyed to accommodate luxury flats and make our daily lives a lot less pleasant. Twickenham does not need more luxury apartments. We need accommodation our nurses, policemen, care workers etc. They will certainly not be able to afford luxury apartments on the riverside.

I am an extremely angry local resident and will happily campaign with others to ensure this proposal is not permitted.

Regards

Kathleen McGraw
