Joanna

I understand that you are the public inquiry manager for the inquiry to be held in June to consider the Twickenham Riverside redevelopment.

I was a resident of the London Borough of Richmond for 58 years until we moved to Devon a few years ago. I was a group member of the Richmond Conservation Areas Advisory Committee for many years until its disbandment under a new political regime and have been aware of Twickenham Riverside and the many proposals for its reimagining since the disuse and demolition of the swimming pool.

I would like to add my support for the current proposals as designed by Hopkins Architects. It is well considered, well designed and offers a real future for this site.

Kind regards

Richard Pain
