Subject: Support for Twickenham Riverside redevelopment;opement

Dear Ms Vincent,

I write in support of the proposed development on Twickenham riverside that was granted planning permission in December 2022.

Like the overwhelming majority of Twickenham residents, I was delighted to see the project finally moving forward following years of inactivity and stakeholder negotiations.

The posturing and forcing of a Public Hearing by the Trustees of the Diamond Jubilee Gardens is regrettable and unrepresentative of the residents wishes. The criteria for agreement laid down by them has been met and satisfied by the proposed development. Their attempt to scupper the proposals, if allowed to succeed, will doom Twickenham to a continued hiatus and waste the opportunity to improve our town for all residents present and future.

I urge you to find in favour of the CPO and allow Twickenham to benefit from the great improvement to the heart of the town that this development will undoubtedly deliver.

Many thanks,

Mr C Belligero.
