Subject: Twickenham Riverside

Dear Brenda and Joanna,

I write to give my support to the plans for the redevelopment of Twickenham riverside.

For all of my life the riverside has been a mixture of a derelict site and car park. This does not serve the populous of Twickenham and the locale well as the space is in effect wasted.

The proposed development would showcase the beauty of the riverside environment and provide a much needed space for community events breathing new life into the town.

Kind regards,

Alice Betts
