**RE: Banwell Bypass Scheme, North Somerset Council (NSC)**

Dear Sir/Madam,

I'm writing on behalf of the Build our Bypass campaign group. We understand you'll be leading the inquiry into objections to some of the Compulsory Purchase Orders (CPO's) for the above scheme.

It's not within our remit to comment on the validity of the objections. However, this scheme has been subject to extensive consultation; feedback where possible has been taken on-board by the planners; and, it should be no surprise to any-one that there was always the possibility of it proceeding given it's been on the drawing board since 1927.

The purpose of this letter is to highlight the considerable local support for this scheme.

I formed the Build our Bypass campaign group in late January to provide a voice for supporters. Over 70 people attended our action day which was covered by the local press and the BBC who described Banwell as the "most polluted village in North Somerset".

Our petition, launched two weeks before NSC's Planning & Regulatory (P&R) Committee meeting, quickly gained 722 signatures. This completely out-numbered objections on the NSC's Planning Portal which had been available for comment for a much longer period of time. Planning approval was unanimously granted.

None of us want new roads but the unique features of Banwell maximise the risk and harm to children, residents and property from traffic blighting our village.

Banwell has a 5 way junction at which two A roads meet with a choke point meaning only one vehicle can pass at a time. These unique factors create congestion, queues and excessive pollution. Footpaths are narrow or non-existent and dangerous to use in the middle of Banwell.

Pollution, especially dangerous PM2.5 particulates, and excessive noise levels are harming physical and mental wellbeing – one resident describes life as a "living hell".

Properties on several streets are less than 1m from the road meaning they're frequently damaged. People have suffered injuries, as vehicles, including HGVs, mount pavements due to the restricted carriageway width.

Significant housing development in Banwell, Sandford, Winscombe, Churchill, Worle and Weston-Super-Mare continues to increase traffic. This also includes traffic heading to and from J21 of the M5 from villages to the east and south of Banwell. Banwell sits at the epicentre.

The local economy suffers costs from delays and the daily frustration of time spent sitting in queues. The benefit-cost ratio for the scheme has been forecasted at 4.94 – very High Value for money using the DfT's Value for Money Framework.

Our petition submitted to the P&R Committee (copy attached) has support from across our local area. Here are just 2 out of 300 supporting comments:

- "We drive from Sandford to Weston multiple times a day and the traffic on the hill is an absolute nightmare... it can easily add 15-20 minutes onto what should be short trips..."
- "This bypass would make such a difference, I live in Winscombe and the bottlenecks of traffic in Banwell causes delay, frustration, pollution and safety concerns for people and property."

The bypass, even with new housing linked to the Housing Infrastructure funding, significantly reduces traffic in Banwell - reducing delays and pollution while creating safer streets. It improves local journey times by avoiding Banwell and eliminates 'rat runs'.

The overall scheme also improves active and sustainable travel options between the villages and Weston-Super-Mare. It solves a problem and creates a pathway to a better more sustainable future. It also provides the funding for long awaited traffic mitigation measures in nearby villages.

Given your focus is on the validity of the objections to some (not all) of the CPO's we felt it important to highlight to the inquiry that many of us see positive benefits from this long-awaited scheme. We hope this context helps inform your decision-making.

Yours faithfully,

Steve Voller

on behalf of the Build our Bypass campaign group and its founding members:

Mrs A. Arlidge, Mr C. Baggs, Ms S. Fry, Mr W. Marshall, Mr T. O'Leary, Mr & Mrs Trapp, Ms A Woolley, Ms S. Winter

# Build Banwell's Bypass

## About this petition

We, the undersigned, support the building of Banwell's long awaited and much needed bypass along with mitigation measures for the surrounding villages of Winscombe, Sandford and Churchill.

Traffic volumes have increased significantly and continue to increase. Over the last 40+ years Banwell has become infamous as a notorious bottleneck. The bypass is needed now to address our current traffic problems irrespective of future increases in traffic levels.

The lack of a bypass causes issues, such as:

- Safety issues for local residents especially due to the narrow roads
- High levels of air pollution from idling traffic
- Physical damage to residents' properties
- Delays for drivers trying to get through the village

We urge North Somerset planners to give the bypass planning approval on the 15th March, 2023!

#BuildOurBypass #BetterBanwell

Update: We reached 100% of our target signatures! However, more supporters want to sign so we've extended it - thanks to every-one for your support.

## Signatures

- 
82. Name: Joshua Willis-Fry on 2023-02-28 11:00:03  
Comments: This is long overdue, Banwell is not designed for 18 wheel lorries to pass through it as the main road going through it has section where only 1 car can pass. There is constant traffic, constant idling of engines & constant road rage. This all creates an unhealthy & unpleasant environment for what should be a quiet rural village. This needs to happen immediately!
-

Comments:
- 
88. Name: Richard Carter on 2023-02-28 12:11:57  
Comments: The traffic trying to drive through Banwell is currently far in excess of what the narrow streets can cope with. Our 400-year old house has been struck several times by huge vehicles, causing severe structural damage. I know we are just one of many properties that have suffered the same fate.  
With the enormous amount of new house building already underway in the area,

problems will undoubtedly increase beyond breaking point.

Therefore I consider the Banwell by-pass to be absolutely essential, not only for residents but also for those thousands of car drivers who spend a considerable portion of their day attempting to get through the village two times a day.

- 
89. Name: Michael Roe on 2023-02-28 12:13:24  
Comments: There will never be a better opportunity than this to get the bypass built. In the past funding has always been the issue but the HIF along with NSC have committed tens of millions to get it built. Support them and the village in getting this done.

- 
126. Name: Claire Wilson on 2023-03-01 15:13:19  
Comments: Lived here for 11.5 years and the traffic has got worse and worse. Our front wall was hit just before Christmas and a large section collapsed. We are still awaiting insurance to pay out. Then, two weeks ago a lorry mounted the pavement to get passed idylling traffic and it crashed in to our stone gate post and it crumbled away. My children walk this route to school bus everyday, god forbid anyone hit them. I also worry about the traffic fumes for all the residents on West Stree and Nightcott Road. The traffic jams multiple times a day means we can't open windows and it puts me off using the garden. Our youngest has the respiratory disease Cystic Fibrosis. All the new housing in the area means traffic is building more and more. We need this bypass and the traffic calming through the village now before something dreadful happens to another pedestrian. (Runner hit last month by van mounting pavement in Banwell).

People be knocked over  
Walls being knock over  
Houses being driven into.  
Lorry's driving on the pavements  
40 mins to get though the narrows  
Houses already been built  
To name a few reasons why we must finally have a village life.

157.	Name: Nick East	on 2023-03-01 18:38:08	

Comments: Yes it will create more development in Sandford and beyond. But why should Banwell bear the brunt of a national increase in the need for homes. Why should opportunities for more homes and employment be denied by the NIMBY few. Just get on with it please and create a quiet little village in Banwell with a village square, quiet walks up to a castle and good pubs, possibly a shop or 2 to attract the business from the new home owners in surrounding areas. Just get on with it please.

Comments:

---

167. Name: Claire Butts on 2023-03-01 20:44:56  
Comments: This should not be still a question of 'should we'. We need this bypass pronto. Houses are going up everywhere, properties are being damaged, pedestrians are being hit, air pollution is suffering, larger vehicles attempting stupid manoeuvres because Sat Nav leads them there. These little roads are not built for the amount of traffic that Banwell endures day and night. We're fed up with being the poor village. Banwell is such a unique village with so much history and so much to give, yet we are just known as a a

traffic jam and hell

hole. Please bring in the cycle paths to sandford and traffic calming through the village.

PLEASE

Comments:
- 
220. Name: Philip Baird on 2023-03-04 22:40:07  
Comments: The pollution levels are above government guidelines. Traffic queues are getting longer due to house building in the all the villages. Lack of public transport or an integrated transport plan for all the housing being built. This bypass has been planned for nearly 100 years yet the local authorities past and present are once again allowing the grass to grow under their feet in the interests of a few.  
Please get this bypass done for the preservation of North Somersets most historic village and, more importantly the health and welfare of the people living in Banwell.
- 
221. Name: Nick Raymond on 2023-03-04 22:45:28  
Comments:
- 
222. Name: Rachel Jackson on 2023-03-04 22:52:40  
Comments: This bypass is needed not just for Banwell but for the surrounding area too. All the housing being built is outside the price range of young people and so attracts commuters to Bristol. There is no reliable public transport or local jobs which is why there are increasing traffic queues and pollution in the village. Build the bypass now!

-

293. Name: Louise Roberts on 2023-03-07 14:40:36  
Comments: This is a necessity to ease congestion through Banwell. It's dangerous as drivers get impatient waiting to go an this is how accidents happen
- 
294. Name: John Cornish on 2023-03-07 14:42:38  
Comments: The lack of action in not taking the by-pass forward is unacceptable and bordering on incompetene. This should have been built years ago not only to protect the village and the villagers but also those people who have to use this route to get to work. The man hours lost must be horrendous. I find it strange that planning permission allows large numbers of residential builds around this bottleneck and yet still deliberate about a bypass, disgraceful.

- 
395. Name: Nick Roberts on 2023-03-09 16:07:51  
Comments: Banwell has needed a bypass for decades. Traffic through our village makes local's lives a misery when trying to get home. The houses though the main road are regularly hit by vehicles and are always covered in exhaust soot, I feel sorry for our neighbours. With more and more houses being crammed into the village and surrounding areas, the infrastructure needs to be upgraded if we are to stand a chance.

-

- 
596. Name: Dan Cuthbertson on 2023-03-12 13:30:03  
Comments: It needs to be built. Objectors keep saying it will move the traffic problems to neighbouring villages but how? Neither Sandford nor Winscombe have multiple bottlenecks/pinch points like Banwell so I fail to see how. Increases in traffic are also quoted but it's the same traffic, simply using a new road and the increases are expected with the new housing estates popping up, funnily enough like those in Churchill and Winscombe!

Comments: Lived in Banwell almost 30 years  
Please build the bypass to help our dying village  
Don't let this be a continuous disappointment due to the woke brigade of other villages

whose argument does not stack up

Yes we'll have more and more traffic as I've seen over the last 30 years with more housing but the argument should be to improve our infrastructure not frustrate it  
These other villages should campaign for their own improvement and would get my support

Comments: Just please please please make a start on the much needed necessity for the area, it's been too long. Banwell has the potential to be a lovely little village, but the volume of traffic it has to endure day in day out isn't fair, let alone unhealthy for residents. It's just ridiculous that all the traffic coming out of an ever growing weston has to funnel through a bottle next to get to a major trunk road (A38). Come on get it built!!

710.	Name: Andrea Arlidge	on 2023-03-14 07:16:15	Comments: It is essential that NS Council builds this bypass and, having lived in Banwell for 23 years, I see on a daily basis why it is needed. The traffic congestion is horrendous and its impact on health, safety, the environment and the wider local economy is well documented. The congestion is getting worse and causes frustration, anger and misery on a daily basis. More development is planned, which will further exacerbate an already untenable situation. This Bypass must be built.
711.	Name: Matt Hoygreen	on 2023-03-14 07:32:11	Comments: Hi do it
