

**THE LONDON BOROUGH OF HARINGEY (HIGH ROAD WEST PHASE A)
COMPULSORY PURCHASE ORDER 2023**

The Phasing Programme - Demolition and Construction Dates

1. The anticipated start and completion dates for each Phase of the Consented Scheme are set out within the table at section 8 of Selina Mason's evidence [CD 9.3].
2. The "Anticipated Start Date" within the table indicates the anticipated date demolition works will commence in relation to each Phase.
3. In response to the Inspector's request, the table below confirms the "Anticipated Start Date (Demolition)" and the "Anticipated Start Date (Construction)" for each Phase.
4. The "Anticipated Start Date (Commencement)" generally occurs in the quarter following the "Anticipated Start Date (Demolition)". The exception to this is Phase 1B and Phase 7 where demolition of the existing buildings within these Phases is required to facilitate the delivery of the surrounding Phases. This will also provide the opportunity for meanwhile uses to be located within these Phases prior to the respective "Anticipated Start Date (Commencement)".
